

At the time of this report, the activities log for the website was down for maintenance. Therefore it was estimated that the September web activities resulted in 2,602 individual visitors, viewing over 5,000 pages on the site. The most viewed page this month was the 'September Newsletter'. A more detailed report will be uploaded to the website at a later date.

Current site disk usage is 624.17MB out of the 300,000 MB allotted space for the site. During the month of September I logged a total of 30 hours of volunteer website time.
