July 2013 website report for the AL233FL.org website

July web activities resulted in more than 3,033 individual visitors viewing more than 6,149 pages of information. The most visited page during the month was the July newsletter, followed by the Special Events page and the Memorial page.

We are currently at 653.38 MB capacity of the 300,000 MB allotted.

The newest feature to the website is the e-calendar where a listing of monthly events can be found and printed out. The calendar will be able to be updated by multiple users from remote locations thereby keeping all members informed of events, rental booking dates, changes to existing events, etc. all in real time.

During the month of July I logged a total of 35 hours of volunteer website time.
